EXPERIENCE

Front-End Developer - National Alliance on Mental Illness (NAMI)

December 2024 - January 2026

Built NAMI's core business application written in Laravel, promoting accessibility and usability for a diverse range of users. My focus was on developing high-quality, user-centered front-end solutions, ensuring that our systems are intuitive and effective.

- Introduced a Design Component Library to enforce brand standards with reusable components
- Accessibility audit that increased our aggregate score by 30%
- Implemented Cypress automated E2E testing

Volant Web Design, NJ — Founder

September - present

Resumed accepting clients in the sole proprietorship web design business that I previously ran from 2017-2019.

- Design/build with JavaScript, PHP, HTML5/CSS
- Deliver SEO and analytics reporting, improving online visibility

Charity Navigator, NJ — Software Engineer

August 2023 - September 2024

Lead the design, testing, and development of a React and Typescript-based portal tool for data review, while also managing critical support operations. Collaborated with multiple departments to drive operational excellence.

- Designed and developed a portal used by 50,000+ clients
- Enhanced website performance during high-traffic events of 700,000 visitors
- Reduced downtime through improved error management
- Transitioned data flows into GraphQL API endpoints, streamlining processes
